

TURKISH ORNAMENTAL PLANT GROWERS UNION

PORTAL

SÜSBİR Portal is reopened with its new interface. Companies and all their products can be seen by users, excluding price information.

SÜSBİR Product Announcement and Sales Portal which was an important project for the ornamental plants sector was launched in early 2017; it has been improved to meet the user demands and been growing day by day with the increasing number of users.

In the portal, where the members can access with their own username and password via their computers or mobile devices, they can upload their products with such details as size, diameter, quantity, container conditions and container capacity which they can also support with images and update those when necessary.

In the portal which brought a breath of fresh air to the ornamental plants sector as a new marketing channel, the members find the opportunity to market their products with the minimum cost to entire Turkey for the moment.
